

DOLLY CHAURASIA

Full Stack MERN Developer

New Delhi, India | 9210526200 | dollychaurasiaa26@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Highly motivated Full Stack MERN Developer with hands-on experience in building scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive user interfaces, integrating REST APIs, and implementing secure JWT authentication. Proficient in collaborating with cross-functional teams and participating in code reviews to ensure best coding practices.

TECHNICAL SKILLS

- **Technical Skills:** JavaScript, HTML5, CSS3, C++, React.js, Express.js, Node.js, MongoDB, Git, GitHub, VS Code, Postman
- **Soft Skills:** Communication, Leadership, Problem Solving, Team Collaboration, Adaptability to New Technologies, Time Management, CI/CD, Docker

EXPERIENCE

Frontend Developer Intern — Arcoders Tech | New Delhi, India

Jun 2026 – Aug 2026

- Engineered scalable and responsive frontend features using React.js, resulting in a 30% improvement in user experience and a 25% reduction in page load time
- Optimized application performance by reducing page load time and improving code efficiency
- Participated in code reviews and debugging to ensure best coding practices and improve application quality

Design Team Member — INNERVE'26 | New Delhi, India

March 26 – March 26

- Created and refined UI/graphic designs for event promotions using modern design principles
- Collaborated with cross-functional teams to align design with event objectives
- Delivered multiple creatives under tight deadlines, ensuring timely execution of campaigns

PROJECTS

VINGO- Food Delivery Web Application — MERN Stack

- Architected and developed a full-stack Food Delivery Web Application using the MERN Stack, integrating REST APIs, implementing secure JWT authentication, and optimizing application performance
- Designed and managed MongoDB collections for efficient data storage and retrieval
- Implemented real-time order tracking using Socket.io and Google Maps API

Heart Disease Prediction System — ML

- Developed a Heart Disease Prediction System using a dataset of 1,025+ patient records with 14 clinical features to predict the likelihood of heart disease
- Built an interactive web interface using Flask that allows users to input 14 health attributes and receive real-time prediction results
- Trained and compared Logistic Regression, Decision Tree, Random Forest, K-Nearest Neighbors (KNN), and Support Vector Machine (SVM) to get the best result

ACHIEVEMENTS

- Ranked among the Top 20 participants in SnowScript Winter of Code conducted by Google Developer Group
- Achieved AIR 6 in IGDTUW examination 2025
- Recognized as the highest scorer in Class 10
- Received a Certificate of Appreciation for successfully completing the 30-Day POTD Challenge organized by IGDTUW

EDUCATION

MCA — INDIRA GANDHI DELHI TECHNICAL UNIVERSITY FOR WOMEN

2025 – 2027 | CGPA: 8.91

B.Sc. Physical Science With Computer Science — RAJDHANI COLLEGE

2020–2023 | CGPA: 8.53
