About Triloknath Immigration Services

Founded in 2015, Triloknath Immigration Services (TIS) was built on a simple belief: where someone lives should never limit where they work.

TIS is a government-authorised recruitment and manpower-training partner, delivering end-to-end global hiring solutions — from candidate sourcing and recruitment, to work-permit processing, to Employer of Record and payroll — across 150+ countries. We remove the compliance, legal, and logistical burden of international hiring so employers can focus on growing their business, not navigating red tape.

Trusted by 5,000+ companies worldwide, TIS combines a verified talent network of 1M+ profiles with in-house training and in-country legal expertise, giving employers a single, accountable partner for the entire employment lifecycle.

Government-Authorised

A registered Recruitment Agent (RA), licensed by India's Ministry of External Affairs (MEA) for international manpower deployment.

150+ Countries

Active recruitment and deployment pipelines spanning every major hiring market, with local compliance expertise in each.

98% Success Rate

ISO 27001 certified and GDPR compliant, with a 98% visa-and-placement success rate across all categories.

Government Licensing & Compliance

TIS operates as a fully licensed and authorised recruitment partner, ensuring strict adherence to government regulations at every stage of international manpower deployment.

- Registered and certified Recruitment Agent (RA), authorised by India's Ministry of External Affairs (MEA).
- Full compliance with MEA guidelines, ensuring safe, transparent, and lawful migration for every candidate.
- In-house expertise in embassy attestation, documentation, and visa processing.
- In-country legal specialists supporting work-permit filing in destination markets — including decentralised permit units such as Slovenia's.
- If an employer already has a preferred immigration lawyer or work-permit partner, TIS is glad to work alongside them; where none exists, our legal team manages the process end-to-end.

meeting specialised international labour demands.

TIS also recruits across Information Technology, Manufacturing, Finance & Banking, Education, Engineering, Logistics, Sales & Marketing, Automotive, Telecommunications, Aviation, and Retail — with dedicated recruiters bringing deep domain expertise to every sector.

In-House Training & Upskilling Centre

Our dedicated training facility ensures every candidate meets international standards before deployment — a pipeline of job-ready, certified professionals for our global clients.

Purpose-Built Infrastructure

Modern facilities equipped for hands-on learning in technical and service trades.

Customised Curriculum

Programmes tailored to specific country requirements and employer needs, ensuring compliance and immediate productivity.

Certification & Quality

Rigorous assessment validates skill proficiency before every candidate is deployed to a client role.

How We Work

A transparent, three-step process that takes employers from hiring request to onboarded employee.

1. Tell Us Your Needs

Share your hiring requirements — role, country, skills, experience level, and budget. Our consultants build a custom recruitment and immigration strategy tailored to you.

2. We Find Top Talent

Our sourcing network and screening process shortlist the best-matched, pre-vetted candidates — verifying qualifications, references, and visa eligibility before you interview.

3. Hire & Onboard

We handle contracts, visa processing, work permits, and payroll setup — so your new hire is contributing from day one.

Why Employers Choose TIS

Free for Employers

Unlike agencies that charge 8–18% in placement fees, our recruitment service carries no cost to the hiring company.

Recruitment + Immigration, One Partner

Our own legal specialists manage work-permit documentation and filing — or work alongside your existing legal team, if you prefer.

A Verified Talent Pool

Experienced candidates sourced from India, Nepal, and across African nations, screened and upskilled at our training centre.
