EDUCATION

INDIRA GANDHI DELHI TECHNICAL UNIVERSITY FOR WOMEN

2025 – 2027

MCA

8.91

Relevant Coursework: DBMS, OOPS, Operating System, ML,SQL

RAJDHANI COLLEGE

2020–2023

B.Sc. Physical Science With Computer Science

8.53

WORK EXPERIENCE

Frontend Developer Intern, Arcoders Tech

Jun 2026 – Aug 2026

Web Development(Frontend)

- Built scalable frontend features using React.js, improving user experience
- Reduced page load time by optimizing components and lazy loading
- Integrated APIs and managed application state efficiently
- Developed reusable UI components, reducing development time for future features
- Participated in code reviews and debugging to improve application performance.
- Gained hands-on experience in building dynamic web applications using React.js

Design Team Member

March 26 – March 26

INNERVE'26

- Created and refined UI/graphic designs for event promotions using modern design principles
- Worked closely with cross-functional teams to align design with event objectives
- Delivered multiple creatives under tight deadlines, ensuring timely execution of campaigns

PROJECTS

VINGO- Food Delivery Web Application — | MERN Stack

Dec 2025

- Developed a full-stack Food Delivery Web Application using the MERN Stack.
- Built 10+ responsive UI pages using React.js and Tailwind CSS, delivering a seamless experience across desktop and mobile devices.
- Designed and managed 5+ MongoDB collections, including Users, Restaurants, Food Items, Orders, and Carts, for efficient data storage and retrieval.
- Implemented real-time order tracking using Socket.io and Google Maps API.
- Integrated Google One Tap Authentication for seamless user login.
- Built a secure JWT-based authentication and authorization system.
- Integrated Razorpay Payment Gateway for secure online transactions.
- Created RESTful APIs for user, restaurant, cart, and order management

Heart Disease Prediction System | ML

Nov 2025

- Developed a Heart Disease Prediction System using a dataset of 1,025+ patient records with 14 clinical features to predict the likelihood of heart disease.
- Built an interactive web interface using Flask that allows users to input 14 health attributes and receive real-time prediction results.
- Designed the application to support early heart disease risk assessment, enabling faster and data-driven healthcare decision-making.
- Trained and compared Logistic Regression, Decision Tree, Random Forest, K-Nearest Neighbors (KNN), and Support Vector Machine (SVM) to get the best result.

ACHIEVEMENTS

- Ranked among the Top 20 participants in SnowScript Winter of Code conducted by Google Developer Group, highlighting competitive coding and development capabilities
- Achieved AIR 6 in IGDTUW examination 2025, reflecting excellent academic performance and strong understanding of core concepts.
- Recognized as the highest scorer in Class 10, showcasing consistent academic excellence and dedication
- Received a Certificate of Appreciation for successfully completing the 30-Day POTD Challenge organized by IGDTUW.

SKILLS

Technical Skills

- **Languages:** C++, HTML, CSS, JAVASCRIPT
- **Frameworks :** React.js, Express.js, Node.js, MongoDB
- **Developer Tools:** Git, GitHub, VS Code, Postman

Soft Skills

- Communication Leadership, Problem Solving, Team Collaboration, Adaptability to New Technologies, Time Management
