

Employer Response Strategy Playbook

Objective: Increase employer response rates using a multi-channel, intelligence-led outreach process instead of relying on cold emails alone.

Workflow

Target Employer → Research → Identify Decision Maker → LinkedIn Warm-up → Phone Call → Send Personalized Email → Follow-up 1 (3 days) → Follow-up 2 → Referral/Content/Meeting → CRM Learning

Step	Action	Purpose
1	Research employer	Understand hiring, expansion and labor demand
2	Identify decision-maker	HR, Operations, Plant Manager, CEO
3	Warm up on LinkedIn	View profile, connect, engage
4	Call first	Qualify labor shortage and request permission to email
5	Send personalized email	Reference company-specific hiring evidence
6	Follow-up after 3 days	Short reminder with additional value
7	Second follow-up	Share case study or labor market insight
8	Offer pilot program	Reduce perceived risk with small initial hiring
9	Use referrals & partners	Gain trusted introductions
10	Track in CRM	Record outcomes and improve future outreach
